

SUJATA PATEL

Full Stack Developer • Java • Spring Boot • React.js

+91-7307170387 • sujatapatel7827@gmail.com • github.com/sujatapatel7827-maker • New Delhi, 110005

PROFESSIONAL SUMMARY

Motivated Full Stack Developer with a BCA from IGNOU (2024) and demonstrated experience designing, building, and deploying production-grade web applications end-to-end. Proficient in Java, Spring Boot, and React.js with strong expertise in RESTful API design, JWT-based authentication, Microservices architecture, MySQL, and MongoDB. Experienced with Git version control, CI/CD pipelines via GitHub and Vercel, and modern Agile development practices. A dedicated problem-solver seeking a full-time fresher software engineering role at a product-based company, MNC, or high-growth startup across India.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks: Spring Boot, Spring MVC, React.js (Vite), Bootstrap 5, Node.js, Express.js

Backend & APIs: RESTful API Design, Microservices Architecture, JWT Authentication, Servlet, JSP, JDBC

Databases: MySQL (relational), MongoDB (NoSQL)

Tools & Platforms: Git, GitHub, IntelliJ IDEA, Eclipse IDE, VS Code, Postman, Vercel

Concepts: OOP, MVC Architecture, SDLC, Agile/Scrum, CRUD, Responsive Design, CI/CD, Version Control

PROJECTS

Library Management System — Full Stack | Java • Spring Boot • React.js • MySQL • JWT • REST API

[Live Demo ↗](#)

- Architected a production-grade, full-stack LMS independently managing 500+ student records with real-time seat allocation, automated payment workflows, and live status dashboards — achieving zero-downtime deployment on Vercel across Admin and Student portals.
- Engineered 15+ JWT-secured RESTful API endpoints with role-based access control (RBAC), reducing manual administrative overhead by an estimated 60% through full end-to-end process automation covering bookings, payments, and real-time status updates.
- Designed an interactive React.js analytics dashboard with live data visualisation and dynamic reporting, enabling administrators to monitor occupancy trends and generate instant usage reports — demonstrating full SDLC ownership from MySQL schema design to production deployment.

Personal Developer Portfolio | React.js (Vite) • Node.js • Express.js • MongoDB

[Live Demo ↗](#)

- Built and deployed a fully responsive developer portfolio using React.js (Vite) with a Node.js/Express.js backend, achieving a Google Lighthouse performance score above 90 and sub-2-second load times across all device categories.
- Implemented a live MongoDB-backed contact form with RESTful API routing and MVC-structured codebase, demonstrating real-world backend integration, data persistence, and separation of concerns in a production environment on Vercel with GitHub CI/CD.

Food Ordering Web Application | HTML5 • CSS3 • JavaScript • Vercel

[Live Demo ↗](#)

- Developed a fully responsive, mobile-first food ordering platform with dynamic menu rendering, CSS3 animations, and intuitive multi-step ordering flow — demonstrating strong front-end engineering using semantic HTML5 and modular vanilla JavaScript without framework dependency.

EDUCATION

Bachelor of Computer Applications (BCA)

2021 – 2024

Indira Gandhi National Open University (IGNOU) • New Delhi, India

ADDITIONAL INFORMATION

Languages: Hindi (Native) • English (Professional Working Proficiency) **Nationality:** Indian • Open to relocation: Bengaluru, Hyderabad, Pune, Noida, Mumbai

Objective: Actively seeking full-time opportunities in Full Stack Development, Java Backend Engineering, or React.js Frontend roles at product companies, MNCs, and startups across India.
